In order to keep a track of patients with habit induced potentially malignant lesion and conditions .Dr Kriti Shrivastava and Dr Ajita Singh(Dept. Oral Medicine and Radiology)have come out with a unique idea of an application in association with (KLIC, LNCT) that will keep a full record of these patients, starting from their habit history, the extent of the lesion/condition , sign and symptoms etc, the instructions given to the patient as well as the treatment given to the patient.The app also enables the patient to record their symptoms (like burning sensation, mouth opening),gives a reminder of medication, any oral physiotherapy if required and also notifies them with next appointment. The app is also equipped with patient educational and motivational videos in relation to quitting the habit and improving the quality of life.

**Department Of Prosthodontics, Crown Bridge and  
Implantology**

Details of patent by staff and post graduate students

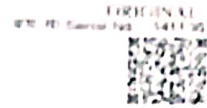

Name of the staff	Patent title	Agency or association or college who conducted the program	Date
Dr Siddharth Gupta	Face Guard	Rishiraj college of dental science and research center	21-04-2023
Dr Ambika Shrivastava	Face Guard	Rishiraj college of dental science and research center	21-04-2023
Dr Anjali	Face Guard	Rishiraj college of dental science and research center	21-04-2023
Dr deepak	Face Guard	Rishiraj college of dental science and research center	21-04-2023
Dr ayangba	Face Guard	Rishiraj college of dental science and research center	21-04-2023
